### Do I have depression?

- Do you often feel sad, anxious, worthless, or even “empty”?
- Have you lost interest in activities you used to enjoy?
- Do you get easily frustrated, irritable, or angry?
- Do you find yourself withdrawing from friends and family?
- Are your grades dropping?
- Have your eating or sleeping habits changed?
- Have you experienced any fatigue or memory loss?
- Have you thought about suicide or harming yourself?

**Depression looks different for everyone. You might have many of the symptoms listed above or just a few.**

### How do I get help for depression?

- **Talk to a trusted adult** (such as your parent or guardian, teacher, or school counselor) about how you’ve been feeling.
- **Ask your doctor** about options for professional help. Depression can be treated with psychotherapy (also called “talk therapy”), medication, or a combination of medication and talk therapy.
- **Try to spend time with friends or family**, even if you don’t feel like you want to.
- **Stay active and exercise**, even if it’s just going for a walk. Physical activity releases chemicals, such as endorphins, in your brain that can help you feel better.
- **Try to keep a regular sleep schedule.**
- **Eat healthy foods.**

---

**You’re not alone, and help is available. You can feel better. To get help, call or text the 988 Suicide & Crisis Lifeline at 988 or chat at 988lifeline.org.**
